I. SIGNIFICANT ITEMS

Nothing to report.

II. OTHER ACTIVITIES

25X1

1. On 21 February, after completion of a lecture period, [redacted] discussed the possibility of a further re-organization of the SIS program on Communism with [redacted]. Since SIC now handles the entire program for SIS, with a new presentation on the Soviet IS being added in the current running, [redacted] has given us virtual carte-blanche to use the designated hours as we feel most appropriate. Some reallocation of the lecture hours will be recommended.

2. [redacted] USIA, has notified SIC that the necessary approval of the suggested program has been secured and a tentative date of 10 March has been set. [redacted] indicated, however, that we may be asked to schedule the course a week or two later in order to give the Training Division more time to publicize it and to enroll some of the more senior staff members who are not available by 10 March.

25X1

25X1

3. [redacted] on 24 and 25 February to conduct a four-day program for a group of approximately twenty-five members [redacted]. At the time of their departure full security clearance had not been obtained for all members of the group, but this was expected to come through prior to the scheduled beginning of the course on 25 February. [redacted] will present two days on Party organization and [redacted] two days on anti-Communist operations.
